Dear
Editor BIC (Batusangkar International Conference)

We have read and used scientific articles published in BIC.
The performance of the BIC was excellent, and the published article helped us conduct research and write scientific reports.

I am Gunawan Tambunsaribu, representing other authors from Universitas Kristen Indonesia.
We have completed a scientific article entitled "***Integration of Character Education through Local Wisdom in Indonesian Language Learning at Junior High School.***"

We hope this article can be published in the BIC because exciting findings in the scientific report can become new treasures in science, especially in education sciences.
We are willing to go through the review process following BIC standards.

Best Regards,

Gunawan Tambunsaribu
Universitas Kristen Indonesia

Dear

Gunawan Tambunsaribu, et al.
Universitas Kristen Indonesia

Thank you for submitting the manuscript to BIC.

We have completed our evaluation, and the reviewers recommend reconsidering the manuscript following minor revisions. Please resubmit the revised manuscript by July 15th, 2022, or ask whether an alternate date would be acceptable. We invite you to send it back after addressing the comments below.

When revising the manuscript, consider carefully all issues mentioned in the reviewers' comments: outline every change made in response to their comments and provide suitable explanations for any remarks not addressed. Please also note that the revised submission may need to be reviewed.

To submit a revised manuscript, please log in as an author at this email, and navigate to the "Revision" folder. BIC values team contribution, and I look forward to receiving the revised manuscript.

Editor and reviewer comments:

Reviewer:

1. **Clarity in Local Wisdom Definition:** The term "local wisdom" is mentioned, but it would be beneficial to provide a clear definition or conceptual framework early in the article to ensure readers have a solid understanding of its implications within the context of this study.
2. **Elaboration on Descriptive Quantitative Data Analysis:** The method of descriptive quantitative data analysis is mentioned, but the article would benefit from a more detailed explanation of the specific techniques employed, ensuring transparency and reproducibility for other researchers.
3. **Specify the Sample Size and Selection Criteria:** It's essential to provide information on the sample size and the criteria used for selecting State Junior High Schools in Pajukukang District. This information is crucial for the external validity and generalizability of the study.
4. **Detailed Presentation of Results:** While the results mention the impact on students' attitudes and behaviors, a more detailed presentation of the quantitative findings, perhaps in the form of charts or tables, would enhance the clarity and allow for a more nuanced understanding.
5. **Discussion on Varied Impacts on Different Values:** Since different local wisdom values are highlighted, a more in-depth discussion on how each value uniquely influences students and the implications for education would add depth to the article.
6. **Addressing Potential Confounding Variables:** Consider discussing and addressing potential confounding variables that might influence the observed impact, providing a more robust analysis and interpretation of the findings.
7. **Connection between Values and Learning Outcomes:** Establish a clearer link between the instilled values of local wisdom and the actual learning outcomes in Indonesian language subjects. How do these values contribute to academic success or overall educational development?
8. **Incorporate Examples or Case Studies:** Adding specific examples or case studies illustrating instances where local wisdom values were effectively integrated into classroom learning would provide concrete evidence of the study's impact.
9. **Consideration of Long-term Effects:** Discuss the potential long-term effects of instilling local wisdom values in students. How might these values continue to influence students beyond the immediate classroom setting?
10. **Reflection on "Starting to Develop" Values:** Provide a reflective discussion on how values categorized as "starting to develop" could be further cultivated and integrated into the educational system, offering practical insights for educators and policymakers.

I hope you can make improvements as soon as possible and send the revised article again via this email.
