Dear Editor
Solid State Technology presents
(SST Journal)

We have read and use scientific articles published in SST Journal.

The performance of the SST Journal was excellent, and the published article helped us conduct research and write scientific articles.

I am Maksimus Bisu, Student from Universitas Negeri Jakarta

We have completed a scientific article entitled "**Autogenic and Audiovisual-Self Training for the Biomotor Abilities of Professional Boxers During Covid-19: A Literature Study**".

We hope this article can be published in the SST Journal because there are interesting findings in the scientific article that can become new treasures in science, especially in education sciences.

We are willing to go through the review process following SST Journal standards.

Best Regards,

Maksim Bisu
Universitas Negeri Jakarta

Dear
Maksim Bis, et. al.
Universitas Negeri Jakarta

Thank you for submitting team manuscript to SST.

We have completed our evaluation, and the reviewers recommend reconsideration of team manuscript following minor revision. Please resubmit revised manuscript by November 25, 2021 or ask whether an alternate date would be acceptable. We invite again the author(s) to send back after addressing the comments below.

When revising team manuscript, please consider carefully all issues mentioned in the reviewers' comments: outline every change made in response to their comments and provide suitable explanations for any remarks not addressed. Please also note that the revised submission may need to be re-reviewed.

To submit revised team manuscript, please log in as an author(s) at this email, and navigate to the "Revision" folder. SST values article contribution, and We look forward to receiving back team revised manuscript.

Editor and Reviewer comments:

Reviewer #1:

1. The abstract has not discussed the topic of research objectives and results clearly, so readers do not understand this journal.
2. The English in parts approaches being incomprehensible so as a first step, a firm editorial hand would be needed to figure out what needs to be rethought.
3. The literature review has not explained well the theories that are related and relevant to the object of research and are well related to the study results.
4. The focus of this research can be developed for further research, both for research in Indonesia and abroad, because the research topic is very relevant to the novelty of research a literature study.
5. References are good enough but still need to find the latest references so that this research becomes more up to date.

I hope your team can make improvements as soon as possible and send the revised manuscript again via this email.

Kepada: Maksimus Bisa <maxi.lado@yahoo.com>

Dear

Maksimus Bisa, et.al.
Universitas Negeri Jakarta

Thank you for your team efforts to make improvements your team article.

Based on the Reviewers' considerations, the article has, at some point, increased.

However, a team have to improve on a few more points. Hopefully, are willing to do it.

Please follow the following revision instructions:

#Reviewer 2:

1. The abstract already has a problem topic regarding the purpose of the method and the results of the research clearly so that the reader can easily understand.
2. The introduction has explained the background, purpose, and use of the research.
3. The literature review has explained well the related theories that are relevant to the object of research results.
4. The focus of the research can be developed for further research, both for research in Indonesia and abroad.
5. References are good enough, and the latest references are more up-to-date.

Articles that have been revised and please send it back via this email.
