

Registration of ISAMME 2020 Presenter

From: Google Forms (forms-receipts-noreply@google.com)

To: elson44@ymail.com

Date: Friday, July 17, 2020 at 10:18 PM GMT+8

Thanks for filling out [Registration of ISAMME 2020 Presenter](#)

Here's what we got from you:

Registration of ISAMME 2020 Presenter

Email address *

elson44@ymail.com

First Author Surname *

Son

ABS ID *

44

The name of the presenter on the certificate *

Aloisius Loka Son

Whatsapp Number *

08123700074

Upload proof of payment for the seminar and the publication *

Submitted files

 Bukti transfer - Alo Son.jpeg

Presenter's statement

I stated that I would present my paper at the ISAMME 2020 parallel session. *

I declare

[ISAMME 2020] ANNOUNCEMENT OF ACCEPTED PAPER

From: wahyu@ikipsiliwangi.ac.id

To: elson44@ymail.com

Date: Wednesday, July 15, 2020 at 10:18 PM GMT+8

The Committee of International Seminar on Applied Mathematics and Mathematics Education (ISAMME) 2020 explained that after a double-blind peer review process, the attached name list was declared to have passed the selection to be disseminated in the ISAMME 2020. This event will be held on August 5, 2020. All papers in the attached list potentially accepted to be published in the Journal of Physics: Conference Series after revised their article based on reviewers' suggestions. The authors can see the review results and submit their revised paper as an author version in their account at <http://conference.i-mes.org/index.php/isamme2020> no more than July 17, 2020.

Obligations of the author's publication can be deposited no later than July 18, 2020, include presenter fees and publication fees (<https://isamme2020.ikipsiliwangi.ac.id/registration-fee/>) to BNI account number : 011-988-8832
Holder Name : Nelly Fitriani.

Furthermore, the Author's (attached) can register on the page <https://bit.ly/ISAMME-2020-Presenter>

Thank you for your attention.

Cimahi, July 15, 2020
Chief Executive of ISAMME 2020

Dr. Wahyu Hidayat, M.Pd.

Artikel (ISAMME 2020)

From: El Son (elson44@ymail.com)

To: rully.math@gmail.com

Date: Sunday, July 26, 2020 at 03:50 PM GMT+8

Selamat siang pak Rully

Saya mengirimkan revisi artikel sesuai hasil zoom meeting hari sabtu siang. Dalam artikel saya, tidak terlalu banyak revisi pada bagian isi. Revisi lebih banyak dilakukan pada bagian daftar pustaka saja yakni konsistensi menggunakan titik (.) pada akhir setiap rujukan, hanya menggunakan halaman awal setiap rujukan, dan nama jurnal atau konferensi tidak disingkat.

Terimakasih banyak Pak Rully.

Aloisius L. Son

**A LIST OF ARTICLES THAT HAVE BEEN ACCEPTED AND CAN BE PRESENTED
AT ISAMME 2020 ACTIVITIES AND POTENTIALLY ACCEPTED TO BE
PUBLISHED IN JOURNAL OF PHYSICS: CONFERENCE SERIES**

NO	ABS-I D	FIRST AUTHOR SURNAME	TITLE
1	3	Afrilianto	Improving Students' Mathematical Creative Thinking Ability Using Project-Activity-Cooperative Learning-Exercise (PACE) Model
2	5	Leton	Math Study Habits on Deaf Learners
3	6	Septian	Mathematical representation ability through geogebra-assisted project-based learning models
4	9	Dominikus	Increasing Students' Mathematical Communication Skills By Applying Probing-Prompting Learning Model Based on Belu Culture Artefact
5	10	Zetriuslita	The 5E Learning Cycle Model in an Effort to Foster Students' Mathematical Communication Skills viewed from Academic Level
6	13	Dosinaeng	Ethnomathematics in Boti Tribe Culture and Its Integration
7	19	Edwar	MGMP Optimization in Developing Teacher Professionalism in Developing Hots Problems Based On RME Approach
8	21	Septian	Somatic, auditory, visualization, intellectually (SAVI) learning assisted by GeoGebra to improve student's mathematical representation skills
9	22	Lisnani	Designing MOODLE Features as E-Learning for Learning Mathematics in COVID-19 Pandemic
10	25	Ramadhani	Students' Critical Mathematical Thinking Abilities Through Flip-Problem Based Learning Model Based on LMS-Google Classroom
11	26	Sari	Project learning on the direct proportion
12	27	Tsany	The ability of understanding mathematical concept and self-regulated learning using macromedia flash professional 8
13	29	Nirawati	Analysis of multirepresentation ability to solve algebra problem

14	30	Jagom	Students' creative thinking in solving mathematical problems based on the field-dependent and field-independent models of cognitive style
15	31	Meitriova	Indonesian realistic mathematics education: mastery of learning materials through saving water
16	32	Rahayu	Fruit salad's recipes in the design of learning Mean in class VIII
17	33	Ismunandar	Increasing Creative Thinking Students Using Realistic Mathematical Education Approaches
18	35	Sugandi	Application of Geogebra software to improve problem-solving skills in analytic geometry in prospective teachers students
19	36	Fernandez	Learning geometry of plane and space based on Timor Tengah Selatan culture
20	37	Bernard	The effort to improve English ability for early childhood through a helpful mathematical learning media VBA for Excel game
21	39	Ratu	Acceleration analysis of population growth using winter's method: case study of Lombok Island
22	41	Runisah	The relationship between self regulated learning and mathematical creative thinking ability
23	42	Andini	Planting sprouts as a context in number pattern learning by using project based learning and lesson study for learning community (LSLC)
24	43	Agustina	Electricity account calculation as a context in learning the addition of integer using project based learning (pjl) and lesson study for learning community (lslc)
25	44	Son	CORE RME learning model on improving students' mathematical problem-solving ability
26	45	Nusantara	PISA-like mathematics problem in Covid-19 pandemic (PISAComat): task design
27	51	Ambarita	Mathematical problems covid-19 context (MAPROCO): task design
28	55	Bernard	Developing math games media using scratch language
29	56	Lestari	What is the relationship between self-regulated learning and students' mathematical understanding in online lectures during the covid-19 pandemic?
30	57	Isnani	Problem posing in the proof process identifying creative thinking in mathematics
31	62	Ristiana	Adversity quotient and logical thinking skills of prospective primary school teachers

32	63	Wijaya	Using VBA for Microsoft Excel based on the 6-question cognitive theory in teaching fraction
33	64	Rahayu	VBA media development for Ms. Excel against students' mathematical problem solving
34	65	Tamur	Assessing the effectiveness of the contextual teaching and learning model on students' mathematical understanding ability: a meta-analysis study
35	66	Irawan	Development of an online mathematical misconception instrument
36	67	Putra	Profile of mathematical representation ability of junior high school students in Indonesia
37	68	Amelia	The abstraction process of junior high school students
38	69	Tanujaya	Students' misconception of HOTS problems in teaching and learning of mathematics
39	70	Alghadari	Students depend on the Pythagorean theorem: analysis by the three parallel design of abstraction thinking problem
40	71	Kelana	The effect of STEM approach on the mathematics literacy ability of elementary school teacher education students
41	72	Altaftazani	Application of the constructivism approach to improve students' understanding of multiplication material
42	74	Saputri	Development of comic-based mathematics learning media on social arithmetic topic for class VII of junior high school students
43	75	Fitrianna	The role of education, values, culture and character in online learning for learning mathematical outcomes of prospective teachers
44	76	Chotimah	Increasing primary school students' reasoning ability on the topic of plane geometry by using Hawgent Dynamic Mathematics Software
45	77	Lukman	Structural equation modelling of teaching quality on students' satisfaction
46	78	Ruqoyyah	Microsoft Excel VBA on mathematics resilience of primary school teacher education students
47	83	Muhassanah	Analysis of understanding of concept of calculus 2 on students of the semester 2 mathematics study academic year 2018/2019 faculty of science and technology of nahlatul ulama university purwokerto
48	90	Asri	Design a task using covid-19 context
49	91	Firdaus	Mathematics learning in elementary school through STEM approach
50	93	Murni	Analysis of mathematical thinking skills in multiple intelligence perspectives of primary school students

51	94	Novianti	Increasing mathematical understanding ability using quantum teaching hypnoteaching-based in elementary school teacher education students
52	95	Minarti	Mathematical disposition ability and critical thinking: evaluation of middle school students
53	97	Febriani	Mathematical trauma students' junior high school based on grade and gender
54	98	Suwarno	Exploring ethnomathematics activities to tobacco farmers' community at Jember, East Java, Indonesia
55	100	Rodliyah	The development of IT-based learning evaluation media using wondershare quiz creator on the statistics course
56	102	Amril	The effect experiential learning model based concrete-pictorial-abstract (EL-CPA) on mathematics attitude of deaf students
57	103	Nuraeni	How does the student perception of ikip siliwangi toward online education in the pandemics of covid-19?
58	104	Fauziah	Collaborative learning through lesson study in PMRI training for primary school pre-service teacher: The simulation of polygon matter
59	105	Rahayu	Analysis of elementary school students' mathematical resilience during learning during the covid 19 Pandemic
60	106	Angriani	Algebraic literacy skills of middle school students
61	107	Mumu	Improvement of students' environment awareness through scientific approach in mathematics instruction
62	108	Nindiasari	Effectiveness of scaffolding-based interactive teaching materials: reflective thinking ability in pre-service teacher mathematics
63	110	Prabawati	Probabilistic thinking process of students in solving permutation and combination problems seen from gender identity
64	111	Yenti	Student errors in refractive thinking on component identifying problems about spheres and distance in three-space
65	113	Rabbani	Implementation of teaching materials using a realistic mathematics education approach in PGSD student concern for the environment
66	114	Amelia	The effect of online mathematics learning on junior high school resilience during covid-19
67	115	Aminulloh	Improvement mathematical's problem solving ability of junior high school students by using inquiry models with everyone is a teacher here strategy
68	116	Yuliani	Mathematical critical thinking skill and self confidence according to student's cognitive stage
69	117	Nurwahidayati	Students' activeness in jigsaw type cooperative learning and rank 1 games on sets topic

70	119	Hidayat	Ethnomatematics study: disclosing mathematical concept in batak toba traditional house
71	120	Ruqoyyah	Adversity quotient of prospective primary school teachers in making scratch-assisted math application
72	121	Farida	Magic covering and edge magic labelling and its application
73	122	Wahyuni	Students' thinking: Arithmetic in solving a mathematical problem
74	126	Setiawan	The influence of learning styles on students' mathematical critical thinking skills in solving trigonometric problems
75	128	Balkist	Responses of Students with Special Needs to Online Mathematics Learning during Pandemic
76	129	Fisher	Project-based learning in mathematics : a literatur review
77	131	Mauladaniyati	Students' Mathematical Problem Solving Ability on the subject of function limits
78	133	Sukmawati	Camtasia-assisted computer statistics application practicum learning video in online classes to improve students' mathematical understanding
79	135	Anggriani	Optimal control of roguing, replanting, curative and preventive treatment for the spread of plant diseases
80	136	Zikkah	Mathematical Model of Coral Reefs with Fish Harvesting Effect
81	137	Oktaviyanthi	Short preliminary analysis of student teachers' mathematical knowledge of limit of a function
82	138	Putrawangsa	Mathematics education in digital era: utilizing spatialized instrumentation in digital learning tools to promote conceptual understanding
83	147	Ratnaningsih	Problem solving and cognitive style: an error analysis
84	148	Hamidah	Analysis of Student Learning Styles Viewed from the Level of Geometry Thinking According to Van Hiele: During the Covid-19 Pandemic
85	149	Kristanto	Towards mathematics textbook for supporting 21st century learning: The student perspective
86	151	Widada	The understanding of the triangle in Lobachevsky Geometry through local culture
87	152	Herawaty	The abstraction ability about natural numbers through playing traditional music for elementary students
88	153	Widada	How are the process of abstraction of the division of fraction numbers by elementary school students?

89	154	Widada	Students' Understanding of the Concept of Function and Mapping
90	155	Widada	The cognitive process of students in understanding the triangles in Geometry of Riemann through local content
91	160	Widada	Multiplication and Division of Integers through Cultural Approaches of Playing Dakon
92	163	Pratama	Preparation of Humanist Mathematical Based Teaching Material in Corruption Prevention at Elementary School Age
93	164	Susilawati	The effectiveness of online calculus 2 learning during the Covid-19 pandemic
