Subject: RE: Submission Paper

Dear Author,

We are sending your paper **D-1536** for proofreading in pdf format. Please correct the proof carefully. You may give special attention to authors' names and affiliations, and to see that all the Tables, Figures and References are properly quoted in the text. Please make the proofreading by "sticky notes" or any other editing tool directly in the pdf file only. **Please do not replace any Figure or Table or add an extra one. Also, do not add extra author as it is considered as "gift authorship", which should not be encouraged as suggested by indexing agencies.** The final layout of the paper shall be made only after proof corrections. Please send the corrected proof immediately to avoid the delay in the release of the journal.

We also give ORCID ID of authors in the paper. If you are interested to publish your ORCID ID in the paper please send it along with corrected proof.

Apurva Goel

Subject: RE: Submission Paper

Dear Author,

We are writing to acknowledge receipt of your manuscript titled "WILL DEVELOPMENT AND TEMPERATURE BE RECONCILED?" for possible publication in the journal Nature Environment and Pollution Technology. We have assigned your paper the ID D-1536, which should be used for all future correspondence related to your submission.

Your paper will undergo a thorough review process that may take 5-6 weeks. If your paper is rejected, you will be notified accordingly. However, if the paper is deemed suitable for publication, it may be subject to some corrections/modifications, which will be communicated to you by our editorial team. The initial acceptance letter will be sent after the completion of the final review process.

The final publication of the paper is expected to take around six to nine months. We appreciate your patience during this process.

Please keep the email trail for future reference and tracking purposes.

If you have any questions or concerns, please do not hesitate to contact us.

Sincerely,

P. K. Goel

Subject: RE: Submission Paper

Dear Author

We are pleased to inform you that we have received your manuscript titled "WILL DEVELOPMENT AND TEMPERATURE BE RECONCILED?" for publication in the Nature Environment and Pollution Technology journal. After a preliminary scrutiny of the paper, we have found that the scientific contents of your paper are within the scope of our journal, and we believe that it is suitable for publication.

To ensure the smooth processing of your paper, please refer to the attached file for the format of the manuscript and the certificate that you need to sign before we can accept your paper for publication. You can sign the certificate with a scanned signature or a scanned copy of the certificate after the signature on its printout copy. Once you have prepared your manuscript and signed the certificate, please send them to us at operations@neptjournal.com. We will only proceed with further processing of your paper after receiving your manuscript in journal format and the signed certificate from all authors.

In addition, we kindly request that you provide us with the names of two experts in the subject area who can review your paper, along with their affiliations and email addresses. This will help us to ensure that your paper receives a thorough review and maintains the high standards of our journal.

We ask that you please maintain the trail of this email to keep track of the full correspondence.

Thank you for considering Nature Environment and Pollution Technology as a platform for your research. We look forward to working with you on this manuscript.

Sincerely,

Dear Author,
Thank you for submitting your research paper, for publication in the journal 'Nature Environment and Pollution Technology'.
However during the initial review we found that the paper has a high similarity index from your previous published paper on the same subject.
Kindly reduce the similarity index of the paper and resubmit it.
Also while resubmitting, mention the affiliation details in the paper.
Thank you for considering Nature Environment and Pollution Technology as a potential outlet for your research.
Sincerely,
Apurva Goel
