Dear Dr. Ago Harlim, Sp.IK,

My name is Dr. Kristian Sanjaya, S.H., M.Biomed-AAM, the chief of Scientific Committee of International SWAM. As you may know, International SWAM is one of the biggest aesthetic medicine theme event in Asia Pacific which has over 2.000 participants.

The reason I am writing to you is in regards to follow up the invitation from Dr. Teguh Tanuwidjaja, M.Biomed-AAM, CEO ISWAM, to be one of our speakers and faculties in our upcoming event International Seminar and Workshop in Aesthetic Medicine which will be held:

In: November 24th-26th, 2017

At: Indonesian Convention Exhibition (ICE), Bumi Serpong Damai, Jakarta-Indonesia.

We would appreciate it if you could present scientific presentation as follows:

1. Day : Friday, November 24, 2017  
Time : 11.20 - 11.45  
Topic : Combination of Different Type of Laser for Acne Scar  
Venue : Plenary
  
2. Day : Sunday, November 26, 2017  
Time : 15.45 - 16.30  
Topic : Immunology Behind Dermal Filler  
Venue : Class Room C

Please do not hesitate to contact me if you wish to discuss any of the above or to suggest different topics to present in this big event. The pleasure will be mine to discuss about it.

I have enclosed the consent letter and I look forward to receiving your signed consent letter maximum of 7days since you receive this email. Thank you for your custom.

Sincerely,

Dr. Kristian Sanjaya, S.H., M.Biomed (AAM)

All the best,

Adinda Kinasih

International SWAM Indonesia.

Dear DR. Dr. Ago Harlin, MARS, SpKK

How are you? I am Dr. Kristian Sanjaya, SWAM Scientific Director, speaking on behalf of the committee and SWAM participants. We would like to thank you for attending International SWAM and giving such a great presentation to add extra value in our knowledge as a doctor, especially Indonesian doctors.

International SWAM has passed and it was such a big success even though I'm sure there must be some missed here and there. However, International SWAM was a big achievement because of your presence as one of our speakers.

We, as the committee, are welcoming any suggestions, complains and advices from you in order to be able to serve everyone better in our next events and getting better in time. Also, we would like to hear suggestions on scientific topics for 9th International SWAM 2018. Please feel free to submit an abstract to [scientific.swam@gmail.com](mailto:scientific.swam@gmail.com)

Thank you once again for your presence and I am looking forward to receiving abstracts for International SWAM next year.

Best regard,

Dr. Kristian Sanjaya, S.H., M.Biomed  
Scientific Director of SWAM

INTERNATIONAL SWAM

WE VALUE YOUR FEEDBACK

### SATISFICATION

Overall, how satisfied were you with the conference ?

---

### USEFULNESS

How useful was this conference compared to other conferences you have attended ?

---

### SOCIAL EVENTS

Overall, do you think the conference provided too much, too little, or about the right amount of time for networking ?

---

### FOOD

In general, how would you rate the food at the conference ?

---

**BUILDING**

How satisfied were you with the venue ?

---

How likely are you recommending this event to your colleagues ?

.

**2nd International Anti Aging Conference IntAAC 2017**

Jumat, 14 Juli 2017

Hotel Sahid Jaya Jakarta

**RUNDOWN WORKSHOP**

<b>WORKSHOP I</b>		<b>Update in Fat Loss Management</b>
(09.00 - 11.00)		Moderator: Prof. Dr. Antonius Kurniawan, Sp.PA (K)
09.00 - 09.30	30'	Hunger Craving Weight Gain its all in The Brain Dr. Anoop Chaturvedi, BSc, MBBS, DA, MD, PhD
09.30 - 10.00	30'	Hormone Diet How To Do a Good Hormonal Diet DR.med, Dr. Maya Surjadjaja, M.Gizi, SpGK
10.00 - 10.30	30'	Bioidentical Hormones for Fat Loss Dr. Anoop Chaturvedi, BSc, MBBS, DA, MD, PhD
10.30-11.00	30'	Q n A
11.00-11.15		Coffee Break dan Registrasi WS II
<b>WORKSHOP II</b>		<b>Dysbiosis Fact – Relationship of Gut with Skin Health</b>
11.15 - 12.15		Moderator: Dr. Freddy Wilmana, MFPM, SpFK
11.15 - 11.45	30'	Overview of Gut-Brain-Immune Dr. Anoop Chaturvedi, BSc, MBBS, DA, MD, PhD
11.45 - 12.15	30'	Intestinal Barrier Dysfunction (Leaky Gut) DR. Dr. Aris Wibudi, SpPD
12.15 - 13.00		ISHOMA
<b>WORKSHOP II (lanjutan)</b>		<b>Dysbiosis Fact – Relationship of Gut with Skin Health</b>
13.00 - 14.00		Moderator: Dr. Freddy Wilmana, MFPM, SpFK
13.00 - 13.30	30'	Relevance of Hormonal Therapy with Dysbiosis Dr. Anoop Chaturvedi, BSc, MBBS, DA, MD, PhD
13.30 - 14.00	30'	Q n A
14.00-14.15		Coffee Break dan Registrasi WS III
<b>WORKSHOP III</b>		<b>Update On Minimal Invasive Acne Management</b>
14.30 - 16.30		Moderator : Dr. Erdina Pusponegoro, SpKK
14.30 - 15.00	30'	Etiopatogenesis Acne DR. Dr. Irma Bernadette, SpKK(K) FINS DV
15.00 - 15.30	30'	Update on Acne Treatment (Management Acne Update di Indonesia) Dr. Lili Legiawati, SpKK(K) FINS DV FAADV
15.30 - 16.00	30'	Managemen HPA dan SPA update Dr.Lilik Norawati, SpKK FINS DV FAADV
16.00 - 16.30	30'	Q n A

Seal / Jam		Topic
08.00 - 08.30		Registration Process
<b>Seal 1 (08.30-09.30)</b>		<b>Nutritional</b>
		Moderator : dr. Hani Widayani, M.Biomed (IAM)
08.30 - 08.50	20	Personalized Nutrition for Healthy, Condition & Rejuvenation
		Prof.DR.dr. Nurpadji Asih Taelim, MPH, SpGKK
08.50 - 09.10	20	Nutritional for Anti Aging
		DR.med. Dr. Maya Surjadija, M.Giri, SpGK
09.10 - 09.30	17	Discussion
<b>Coffee Break (09.30-09.30)</b>		<b>Coffee Break</b>
<b>Pembukaan (09.30-10.30)</b>		<b>Pembukaan</b>
09.30 - 09.35	7	Menyanyikan lagu Indonesia Raya
09.35 - 09.40	7	Sambutan Ketua Panitia
09.40 - 09.45	10	Sambutan Ketua Penderita
09.45 - 09.50	10	Sambutan Ketua PB ICI
09.55 - 10.25	30	Pembukaan dan Keynote Speech Menteri Kesehatan Kebijakan Pemerintah dalam Upaya Pengembangan Antiaging Medicine and Health Tourism di Indonesia pada Era MEA Bapak Bambang Widada, SpGKK, MARS (Dirjen Pelayanan Kesehatan)
<b>Panel (10.25-12.00)</b>		<b>Panel : Future Challenges for Anti Aging Physicians</b>
		Moderator : Dr. dr. Supriyanto, Sp.P, MARS
10.25 - 10.45	20	Konsep dan Implementasi Pemberian Kovenangan Tambahan oleh Ketua ICI
		Prof. Dr. Sukman Tulus, SpA
10.45 - 11.05	20	Peluang dan Tantangan Pengembangan Antiaging/Medical Health Tourism di Indonesia
		Pardewati
11.05 - 11.25	20	Peran Wellness and Health Tourism Khususnya Antiaging Health Tourism dalam Mendukung Destinasi Wisata
		Kemesterian Pariwisata RI
11.25 - 11.40	20	Diskusi
<b>Lunch &amp; Prayer (11.45 - 13.00)</b>		<b>Lunch &amp; Prayer</b>
<b>Seal 2 (13.00 - 13.00)</b>		<b>Rejuvenation</b>
		Moderator : Dr. Freddy Wilmana, MPPM, SpFK
13.00 - 13.20	20	Hormone Therapy for rejuvenation
		Dr. Anoop Chaturvedi, DSc, MBS, DA, MD, PhD
13.20 - 13.40	20	Update on Hormones
		DR. Drs. Anil Wijaya, Apt
13.40 - 13.50	17	Discussion
<b>Seal 3 (13.50-14.40)</b>		<b>New Modalities in Antiaging and Aesthetics</b>
		Moderator : Dr. Gishery
13.50 - 14.10	20	Medicine Update in Anti-Aging
		Dr. Freddy Wilmana, MPPM, SpFK
	5	Discussion
14.15 - 14.35	20	Sculptra & Combination Treatment
		Dr. Darryl Chew
14.35 - 14.40	1	Discussion
<b>Coffee break (14.40 - 15.00)</b>		<b>Coffee break</b>
<b>Seal 4 (15.00-15.40)</b>		<b>Diet/Inflammation</b>
		Moderator : dr. Rita Lahirin
15.00 - 15.20	20	SAHs related for antiaging (detoxification and neurotransmitter balancing)
		DR. Dr. Gega Inara Nugraha, M.Giri, SpGK
15.20 - 15.40	20	Anti-inflammatory Diet Plan and Supplementation
		Dr. Siti Nur Fatmahan, MS, SpGK
15.40 - 15.50	17	Discussion

2nd International Antiaging Conference IntraAC 2017

RUNDOUN SIMPOSIUM Day 2

MINGGU, 13 JULI 2017

HOTEL SAHO JAYA JAKARTA

Start/End	Time	Topic
08.00 - 08.30		Registrasi
<b>Plenary (08.30-09.30)</b>		<b>Plenary</b>
		Moderator : Dr. Dyah Agustina Waluya
08.30 - 09.00	20'	Medical Ethics - AREK IDG Dr. M. Nasser, Sp.KK, LUM DLIR
09.00 - 09.15	20'	Patient Safety (PSI ID) PB IDI
09.15 - 09.30	20'	Complement and Alternative Medicine in Indonesia Prof. Dr. dr. Zubairi Djerbass, Sp.PD-KHDM
<b>Seal 5 (09.30 - 10.00)</b>		<b>Antiaging : Evolving Perspective</b>
		Moderator : DR. Dr. Carmen Stagiak, MS, SpOK
09.30 - 09.50	20'	Antiaging Lab Test Dr. George A. Manki, MD, SpPK
09.50 - 10.15	20'	Entrepreneurship And Ageless The New Startup Frontier dr. Bayu Pratiwi Ho
10.15 - 10.25	10'	Discussion
<b>Coffee Break (10.25-10.30)</b>		<b>Coffee Break</b>
<b>Session 6 (10.30-11.20)</b>		<b>Session</b>
		Moderator: dr. Hesti Wilowati, M.Blowed (AAAD)
10.30 - 10.50	20'	The Difference of Skincare Products DR.dr. Aga Harlina MARS, SpKK
10.50 - 11.10	20'	Immunology Behind The Filter DR.dr. Aga Harlina MARS, SpKK
11.10-11.20	10'	Discussion
<b>Seal 7 (11.20-12.10)</b>		<b>Lifestyle Modification</b>
		Moderator: Dr. Pairo S Muhammad
11.20 - 11.40	20'	Management Obesity: Fight Obesity for Healthy Life DR.med. Dr. Maya Surjadiya, M.Did, SpOK
11.40-12.00	20'	The Miracles of Aloe Vera Dr. Freddy Winans, MPPM, SpPK
12.00-12.10	10'	Discussion
<b>Lunch &amp; Prayer (12.10 - 13.00)</b>	60'	<b>Lunch &amp; Prayer</b>
<b>Seal 8 (13.00-13.50)</b>		<b>Lifestyle Selection</b>
		Moderator : Dr. Siti Nur Fatimah, RD, Sp.OK
13.00 - 13.20	20'	Lifestyle for Uterine Cervical Health Prof. Dr. Antonio Karimwan, Sp.PA (R)
13.20 - 13.40	20'	Rational Use of Probiotics in Daily Practice Dr. Abdullah Firmansyah, SpOK, MSc
13.40 - 13.50	10'	Discussion
<b>Seal 9 (13.50 - 14.40)</b>		<b>Better Neurologic life style</b>
		Moderator : Dr. Ghafary Harlaningtya
13.50 - 14.10	20'	Specific Exercise for Relax Dr. Grace Tambelaka, SpKD
14.10 - 14.30	20'	Melatonin Contribution in Sleep and Quality of life Dr. Widya Murni, MARS
14.30 - 14.40	10'	Discussion
(14.40 - 15.10)	30'	<b>Coffee Break &amp; Medicamentation</b>
<b>Seal 10 (15.10-16.00)</b>		<b>Hormonal Therapy</b>
		Moderator : Dr. Graciella Pinovalella, MKK
15.10 - 15.30	20'	Hormonal Changes & Sexual Function in Aging Women Dr. Widya Murni, MARS
15.30 - 15.50	20'	Clonidine & Post Menopausal Symptoms and Management Dr. Prima Progestian, SpOG
15.50 - 16.00	10'	Discussion
<b>Closing ceremony (16.00-16.15)</b>		<b>Closing ceremony, doorprize</b>

## Combination of Different Type of Laser for Acne Scar

ISWAM 2017

Fakultas Kedokteran Universitas Kristen Indonesia

**Introduction :** Laser is used for acne scar therapy, but there is many kind of laser that cause hyperpigmentation post inflammation, particularly in as Asian skin or Fitzpatrick type 4-6. Indeed need basic knowledge about many kind of laser that good for Asian skin for acne scar therapy.

**Methods :** In fewer acne scar cases of Asian skin, we tried to therapy with many kind of ablative laser and nonablative laser. And then, we compared the result and the adverse effect (fraxional CO2 laser, erbium yag laser, Neddle RF)

**Results :** Non ablative laser more compatible with Asian skin for acne scar therapy, but the result is minimum. Ablative laser giving the best result although the hyperpigmentation effect is higher.

**Conclusions :** Ablative superfisial laser combination and nonablative collagen stimulation is the best for acne scar therapy in Asian skin.

**Introduction:** Laser bisa digunakan untuk mengobati akne scar, tetapi banyak jenis laser yang menimbulkan hiperpigmentasi post inflamasi terutama pada kulit asia atau Fitzpatrick tipe 4-6. Karena itu diperlukan pengetahuan tentang jenis laser apa saja yang baik digunakan pada kulit asia dalam terapi akne scar

**Methods:** Beberapa kasus akne scar pada kulit asia, kami coba terapi dengan berbagai macam laser ablative dan nonablative, kemudian kita bandingkan hasil dan efek sampingnya (laser fraxional CO2 laser, Erbium yag laser, Neddele RF)

**Result:** Laser nonablative lebih cocok pada kulit Asia utk terapi akne scar, tetapi hasil lebih minimal. Laser ablative lebih memberikan hasil terapi yang lebih baik tetapi efek samping hiperpigmentasi lebih tinggi

**Conclusions:** Kombinasi laser ablative superfial dan nonablative stimulasi kolagen adalah yang terbaik untuk kulit asia dalam terapi akne scar.

### Introduction

Scar formation is the normal and natural response of tissue to wound healing following an injury that is significant enough to elicit this host tissue response. The incidence of acne scarring may be increased above the background injury with manipulation or "picking" by the patient. These scars may be aesthetically unappealing, and if hypertrophic, they may be painful as well.

Even relatively minor scarring can have a profoundly adverse psychological impact on the patient. Some patients with acne scarring may become despondent, and the emotional impact can last a lifetime.

Acne scarring, which occurs in 95 percent of all people with acne vulgaris, can be challenging to treat. Severely inflamed lesions may leave permanent scars, which can be associated with psychological pain, low self-esteem, and reduced quality of life. Moreover, the clinical severity of acne scars is not necessarily an accurate measure of the patient's distress (i.e., mild scarring

may result in significant distress), just as the clinical severity of the acne vulgaris may not be correlated to the incidence or severity of scarring. General dermatologists are frequently presented with acne scarring and asked to counsel patients with regard to their treatment options. As acne scars often worsen over time, many of these patients are beyond the “acne age” of late teens into the early

### Classification of acne scars Ice pick, box scar, rolling

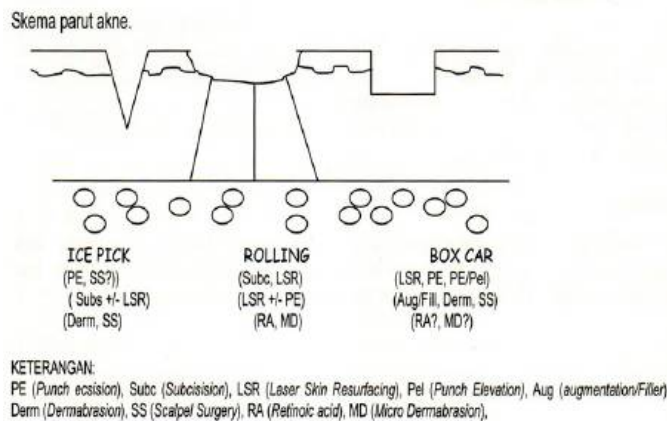

Figure 1. Classification of acne scar

So the problem in acne scar is atrophy and hypertrophy such as keloid

Common scar removal treatments include: dermabrasion, microdermabrasion, chemical peel, retinoic acid, laser, punch excision, filler, skin graft

- Demabrasion. This very effective scar removal treatment uses a high-speed brush or other instrument to resurface your skin and remove or reduce the depth of scars. You will typically need several days to heal afterward.
- Micro-dermabrasion. For this less intensive type of dermabrasion, a dermatologist or aesthetician uses a spray of very small crystals instead of a high-speed brush to remove surface skin. More than one treatment may be required, and there is no downtime.
- Trichloroacetic acid (TCA) Chemical peels. Chemical peels can reduce the appearance of shallow acne scars and post-inflammatory hyper-pigmentation around a healed acne lesion. A chemical peel may be administered by a doctor, nurse, nurse practitioner, or spa aesthetician and involves applying a chemical to your skin to remove its outer layer, giving it a smoother, more even appearance. Depending on the strength of the acid used, you may experience redness and peeling for a few days afterward.
- Retinoic acid. Certain tissue scars should not be treated with traditional acne scar removal treatments. Instead, retinoic acid cream applied directly to the scar can help reduce its appearance, especially in the case of keloid scars.

- Lasers. Your dermatologist can use a laser to remove the outer layer of your skin, contour areas of acne scars, or lighten redness around healed acne lesions. Various types of lasers are used, depending on whether the acne scar is raised or flat. More than one laser treatment may be required and, depending on the laser used, you may need to several days to heal.
- Fillers. A substance such as collagen, hyaluronic acid, or fat can be used to "fill out" certain types of acne scars, especially those that have resulted in a depressed appearance of the skin. Since fillers are eventually absorbed into your skin, you will have to repeat filler injections, usually every few months, depending on the type of product used. There is no downtime for recovery from this treatment.
- Punch excisions. This type of skin surgery removes acne scars by individually excising, or cutting out, the scar. The hole left by the incision can be repaired with stitches or a skin graft. This technique is most often used to treat pitted acne scars.
- Skin grafting. With skin grafting, your doctor will use a small piece of normal skin to fill in an area of scarred skin. Skin grafts are usually taken from skin behind your ear. This technique may also be used when an acne scar removal treatment, such as dermabrasion, leaves a large tunnel in your skin.
- For hypertrophic scar we can use triamconon injection, silicone gel, cryo therapi, long pulse NdYag laser, Pulse day laser

Figure 2. Different kind of acne scar treatment

### TCA Cross Method ( chemical peel)

The TCA CROSS procedure involves depositing small amounts of **TCA** at high concentration (70–100%) onto the surface of the atrophic scar. The aim is to improve the appearance of the scar by increasing collagen reflectance and reducing shadows cast over scar depressions.

TCA CROSS is useful in the following types of atrophic scar: boxcar acne scars, rolling acne scars, Ice-pick acne scars. , TCA cross is the best for Ice-pick acne scars

Figure 3. TCA peeling

### LASER

Significant advances in laser technology have occurred in the past 2 decades, making laser therapy a valuable and highly versatile treatment for a number of skin conditions. We will review how and why lasers work, and what lasers can be used for the treatment of various skin condition.

Nd:YAG, or neodymium-doped yttrium aluminum garnet, is one of the more advanced types of laser technology now commonly used for the treatment of a wide range of skin and eye disorders. It is marketed under different brand names, including Cutera, RevLite

Q-Switched, and Fotona, among others. Each machine is uniquely designed to treat specific problems.

Some important thing, we have to know

Light Photon's Energy chromophore is Absorption of light photon's energy is absorbed by transferred to a chromophore.

A chromophore is an atom or molecule that gives color to a substance and can absorb light at a certain wavelength. Two major chromophore in the skin are melanin and oxyhemoglobin. Our body have a lot of water. Water absorb light in the near infrared portion of the electromagnetic spectrum.

Thermal relaxation time = time it takes for a target substance to cool to half the temperature to which it was heated without increasing the temperature of surrounding tissues. The fluence is high enough to heat the target to and pulse duration shorter than the target's TRT

The principle acne scar laser therapy

Laser works to remove the top layer of your skin where a scar has formed. As this top layer of your scar peels off, your skin appears smoother, and the appearance of the scar is less noticeable or you can use ablative laser such as Erb Yag, CO2 laser fractional

As the scar tissue breaks apart, heat and light from the laser also encourage new, healthy skin cells to grow. Blood flow is drawn to the area by the heat of the laser, and inflammation is reduced as blood vessels in the scar are targeted.

All of this combines to make scars look less raised and red, giving them a smaller appearance. It also promotes the healing of your skin.

Best Combination acne scar treatment, first we have to remove the top layer, we can use ablative laser, dermabrasion, subcision, needling and second, you need to do collagen stimulation for deep layer such as heat device, growth factor, low power laser or non ablative laser such as IPL, fractional erbium Yag laser, long pulse Nd yag laser.

Some laser already have 2 kind of this combination. Remove the top uses Erbium yag laser with short duration pulse with but when we lengthening the pulse with, it can make heat to stimulate the collagen. In 42 °C, we can stimulate the tissue for collagen stimulation.

Figure 4. Examples of skin effects with different ablative Er: YAG fractional settings

#### Pre-treatment Ablative Laser procedures

- ❖ Antiviral prophylaxis against cutaneous HSV
- ❖ A typical 6-week preparation regimen before laser resurfacing is as follows (controversial):
- ❖ Retinoic acid cream (0.05-0.1%): Apply 0.5-1g in the evening to avoid hyperpigmentation
- ❖ Hydroquinone cream (2-4%): Apply 0.5-1g twice daily to avoid hyperpigmentation
- ❖ Alpha-hydroxy acid cream (2-4%): Apply 0.5-1g in the morning

I pass: E 800 mJ, PW 600, spot 4mm, Fr 10 Hz  
II pass: E 700 mJ, PW 1500, spot 4mm, Fr 10 Hz, 3 treatments

Terapi : Punch surgery

Figure 9. Punch surgery for acne scar

### Conclusion

Best treatment for roiling, boxcar acne scar is combination therapy between superficial ablative laser and nonablative/collagen stimulation laser. TCA cross is best for ice pick scar.
