Appendix I

Reading Comprehension Test

Choose the best answer by crossing (X) a, b, c, d, or e!

The test is for number 51-60

The Life of Trees

By Linda Baxter

When I was a child I read a science fiction story that made me think about trees in a new way. In the story, visitors from an advanced civilization come to our planet and their spaceship lands in the middle of forest. The aliens have a long conversation with the trees of the forest, and then leave again, happy to think that the inhabitants of earth are noble, intelligent and peaceful. Trees have always fascinated people. They are the biggest living things on our planet, and one of the most beautiful. Trees appear in many religions and have inspired artists for thousands of years.

The Oldest Trees

Trees are also the oldest living organisms on earth. There is a direct link with thousands of years of history. The great age of trees makes them useful for all sorts of scientific research. The rings inside a tree are particularly useful to tell scientist about changes in the climate that happened many thousands of years ago before written records were kept.

The oldest living organism on earth is a bristlecone pine tree (see http://www.sonic.net/bristlecone/intro.html) which grows in the USA. It is about 4,700 years old—which means that it was growing when the Egyptians built the Pyramids

Sri Maha Bodhi is a banyan tree growing in Sri Lanka. It is the oldest tree in the world that has a recorded history-of more than 23 centuries. It is worshipped by more than 2,000 people daily because it is
believed to be a sapling from the original tree that Buddha sheltered under in India over 2,500 years ago.

The ginko tree is one of the oldest species of tree still living today (see http://www.xs4all.nl/~kwanten/). We know that it was living 160 million years ago when dinosaurs ruled the earth. Watch out for it if you see the film ‘Jurassic Park’! But ginko fossils disappeared about 7 million years ago. Scientists thought that it was extinct until it was discovered in Japan in 1691. Buddhist monks had continued to cultivate the tree. Today it is popular in parks and gardens and is widely used in natural medicine.

The Community of Trees

Trees may have a lot to teach us about being part of a community and how cooperation is better for a society than competition. Scientists are only just beginning to understand how it all works, but we now know that a community of trees growing together shares all of the available resources with each other. So, strong trees in a good position will share food and water with weaker trees that receive less sunlight. They do this through their roots, through the soil, and also through the networks of tiny fungi that grow in the soil between them.

And they don’t only share with trees of the same species – any type of tree can benefit. A community of trees makes itself stronger by working together. The roots of giant redwood trees, for example, grow together under the ground. It’s as if they are holding hands. This means that they are much stronger when trees are heavy winds or floods.

Trees that are grown in city conditions do not live as long as trees that grow in a natural environment, maybe because they are more isolated. And people who work with trees know that a community with a good mixture of different species is stronger and more resistant to insects and diseases.

The Energy of Trees
It has been proved that patients in hospital get better faster, feel less pain and go home quicker if there are trees outside the windows of their rooms. Spiritual and religious teachers for many years have been telling their students to learn from trees, to notice their stillness and strength and try to imitate it. It is true that trees absorb enormous amounts of energy from the sun – more than any other living thing. And some people believe that you can feel this energy if you choose a tree that you feel attracted to, put your arms around it and stay there holding it for a while.

This ‘tree-hugging’ is believed to be good for stress, make you sleep better, and help you to feel more positive and calm. And more and more people are doing it. The Irish politician Gerry Adams recently told a journalist that he regularly hugged trees. He said that it gave him a sense of calm and strength.

We all know that trees are essential for the environment and the survival of our planet. Perhaps they have even more to offer us in the future.

1) The main idea of the passage is …
   a. The philosophy of trees
   b. The oldest trees
   c. The energy of trees
   d. The community of trees
   e. The tree

2) The word advanced in paragraph 1 is similar in meaning to …
   a. excellent
   b. traditional
   c. sophisticated
   d. tremendous
   e. ancient

3) The word they in paragraph 1 refers to …
   a. aliens
   b. inhabitant
   c. people
   d. human being
   e. trees

4) Trees have given inspirations to …
   a. artists
   b. religious leaders
   c. organisms
   d. inhabitants
   e. animal

5) The oldest tree living is …
1) The ginko tree in Japan
2) The bristlecone pine tree in the USA
3) The banyan tree in Sri Lanka
4) The Sri Maha Bodhi tree
5) The trees in Japan
6) The ginko tree is now well known for …
   a. remedy
   b. carving
   c. sculpture
   d. paper
   e. art work
7) One of the things people can learn from the philosophy of tree is …
   a. competition is better for a society
   b. community is a part of better society
   c. networks are part of community
   d. cooperation is better for a society
   e. competition is good
8) The stronger trees share food and water with the weaker ones through the following means, except …
   a. the networks of tiny fungi
   b. roots
   c. stem
   d. soil
   e. tiny fungi
9) Trees matured in city conditions are usually …
   a. short-lived
   b. prosper
   c. long-lived
   d. healthy
   e. strong
10) Patients in hospital get better faster when …
    a. They have trees outside the windows of their rooms
    b. They plant trees outside their rooms
    c. They absorb energy from the sun
    d. They imitate the energy of the trees
    e. They hug trees
11) I drink milk every morning. The passive of the sentence is …
    a. The milk is drunk every morning.
    b. The milk was drunk every morning.
    c. I was drunk milk every morning.
    d. I am drunk milk every morning.
    e. The milk was drink
12) Jannie has picked some roses. The passive of the sentence is …
    a. Some roses has picked by Jannie.
    b. Jannie has been picked some roses
    c. Jannie was picked by some flowers
    d. Some roses have been picked by Jannie
    e. some flowers picked Jannie
13) Davi has written a letter. The passive of the sentence is …
    a. Davi has been written a letter.
    b. A letter was written by Davi.
    c. A letter has been written by Davi.
    d. A letter has written
    e. Davi has written
14) Father have me some money. The passive of the sentence is …
    a. He is given some money
    b. I am given some money
c. Some money was given to her
d. Some money was given to me
e. Some money is given to me

15) Yesterday a mouse … by my cat.

a. is catching
b. was catching
c. was caught
d. is caught
e. has been caught

16) Rani bought a novel yesterday.
The passive of the sentence is …

a. A novel was bought by Rani yesterday
b. A novel was buying by Rani yesterday
c. Rani was bought a novel by yesterday
d. A novel bought by Rani yesterday
e. A novel is bought by Rani yesterday

17) Yudi is making a kite.
The passive of the sentence is …

a. Yudi and kite are being made.
b. A kite was being made by Yudi
c. Yudi was made by a kite
d. Yudi is being made by a kite
e. A kite is being made by Yudi

18) Nino has eaten a slice of pizza.
The passive of the sentence is …

a. A slice of pizza has been eaten by Nino
b. Nino has eaten
c. A slice of pizza has eaten
d. A slice of pizza has eaten by Nino
e. Nino has been eaten a slice of pizza

19) Father reads a newspaper every day.
The passive of the sentence is …

a. A newspaper is read by father every day
b. A newspaper was read every day
c. Father is read a newspaper every day
d. The newspaper was read
e. Father was read a newspaper every day

Here is a letter that Drayka wrote to an advice program on the radio. Fill in the blanks with the word from the box!

a. admire  b. relationship  c. in love
d. fond  e. silly  f. lucky
g. guility  h. closer  i. real
j. last(verb)  k. get to know

Dear Radio Helpline,

Please help me. I have a (20) ……. problem. I am in love with two woman at the same time! I met Kirana through my work about a year ago, and we began going out together. I love and (21) ……. her a lot, and would like to think we might decide to spend our lives together. We share so many things, it is a very special (22) ……. .She does not feel as
strongly about me as I do about her, but she is certainly very (23) …… of me. We have been growing (24) …… over the year, and I have been hoping that she will slowly realize how (25) …… we are to be together. Then, three weeks ago, at a party, I met Elisa. It was love at first sight – I feel as if I have known her all my life. She is very much (26) …… with me, too. I have told her about Kirana. What should I do? My problem must sound (27) …… to some people, but it is not silly for me. I think of both of them all the time. The feeling I have for Lisa is more exiting, but will it (28) ……. ? I haven’t had the time to (29) ……. her very well yet. Should I just wait and see what happens? I feel a bit (30) ……. about the whole thing. Please help me.

Yours,

Drayka

Read the texts, and then choose the correct answer by crossing a, b, c, or d!

We often read book to get knowledge. Books can give us pleasure. When we are tired, we read books to help us relax. Books can also take us to other parts of the world. By reading a book about Irian Jaya we may feel we are living in the jungles, not at home in our rooms.

Books can be very expensive. Therefore a lot of people go to libraries to borrow the books they want. Many famous people have got their knowledge from books. A lot of them did not go to school, but read books instead.

31) Books have many important because they ……..
   a. are very boring to read
   b. make use very sad
   c. can give us a lot of knowledge
   d. can give us happiness
32) What is the best title for the text above?
   a. What is knowledge?
   b. What are books for?
   c. What are libraries for?
   d. What are famous people?
   e. What are books from?

33) When we are tired we read books to help us. ‘Us’ here refers to …….
   a. they and he
   b. yours and mine
   c. journalist
   d. you and me
   e. Its mine

34) X: Why do we often read?
    Y: …………………….
   a. To get books
   b. To borrow books
   c. In order to get knowledge
   d. In order to go to libraries
   e. To got knowledge

35) The last sentences (paragraph 2) “A lot of them did not go to school but read books instead.” The word “them” refers to ……..
   a. books
   b. libraries
   c. all people
   d. famous people
   e. you and me

36) Can book very expensive?
   a. No, they don’t
   b. Yes, it can
   c. No, it can
Charles needs some books for his biology class. The school library has those books. The students have to read the books in the library. Charles loves to read and study, but hates to go to library. He likes to study at home. Charles wants to buy the books, but he does not have any money. He asks his mother for some money, but she does not have any money.

“Well, son,” his mother says, “The library has the books. You can go to the library and study there.” Charles does not want to go to the library, but now he has to go there. Charles is leaves his house and goes to the library on his bicycle.

   a. Biology  
   b. Chemistry
   c. Physic
   d. Mathematic
   e. Social

39) From paragraph 1, we know that Charles ………...
   a. likes to study at school
   b. need some biology books
   c. has to buy the biology book
   d. prefer to study in the library
   e. has bought it book

40) Did his mother give him some money?
   a. Yes, she did
   b. No, she did not
c. Maybe
d. Probably
e. rarely

41) Why his mother did not give him some money at all?
Because she………
a. does not have any money
b. wants to buy some jewelries
c. is not a humble mother
d. wants to go shopping.
e. wants to buy anything

JOGGING IS A CHEAPEST SPORT

Sport helps us to become strong and healthy. There are many kinds of sports: jogging, running, hunting, cycling, swimming, and so on. It is not important what kinds of sports we are going to do as long as we are strong enough to do it. Healthy people should take exercise regularly, no matter how old they are.

The simplest and the best sport are jogging. It is also the cheapest one, because we do not need money to do it. Jogging in the evening may help us to prefer driving a car; although they are not in hurry or travel a long distance. This kind of “disease” comes from our laziness.

42) Does sport help us to become strong and healthy?
a. Yes, he does
b. Yes, he is
c. Yes, it does
d. Yes, it is
e. Yes, she does

43) The words “it” in the line 5 refers to ………
a. jogging
b. hunting
c. swimming
d. cycling
e. climbing
44) The word “they” in the line 4 refers to …………
   a. sport
   b. people
   c. sports
   d. peoples
   e. person

45) Jogging is the best sport and the cheapest one. “the best” means ……
   a. bad
   b. nice
   c. very good
   d. kind
   e. good

46) The simplest sport is jogging. The underlined word means………..
   a. The best
   b. The worse
   c. The easiest
   d. The cheapest
   e. The greats

SUSI SUSANTI

Susi Susanti was born in Tasik Malaya in 1972. When she was a child, her father often took her to the badminton court, which he owned. At first, she only played around the court running and collecting shuttlecocks. Later on her father asked Susi if she wanted to play badminton properly.

47) When did Susi Susanti born? She was born in ………
   a. 1974
   b. 1984
   c. 1982
   d. 1972
   e. 1987
48) Where was Susi Susanti born? She was born in ……..
   a. Bandung
   b. Sumedang
   c. Tasik Malaya
   d. Indramayu
   e. Solo

49) Who took Susi Susanti to Badminton court?
   a. Her mother
   b. Her father
   c. Her brother
   d. Her sister
   e. Her son

50) Susi Susanti is a ………..of the Badminton Championship.
   a. Winner
   b. Supporter
   c. Presenter
   d. Referee
   e. Judging

12. When we were children, mother … us 
delicious ice cream every Sunday.

a. has made 
b. make 
c. made 
d. was made 
e. making

18. I … my wife a letter every other day 
for the last two weeks

13. They have … into a new apartment

a. bought 
b. rid 
c. found 
d. moved 
e. moving

19. I … Many people since I came here 
in June.

14. Have you ever … Thailand?

a. let 
b. been 
c. visited

16. I have never … snow
20. I ... on an airplane many times
   a. have flown
   b. flew
   c. fly
   d. have flew
   e. flies
21. Arabic ... in many countries
   a. was speaking
   b. are spoken
   c. is spoken
   d. was spoken
   e. is being spoken
22. An island ... by water
   a. was surrounded
   b. are surrounded
   c. is being surrounded
   d. is surrounding
   e. is surrounded
23. The electric bulb ... by Thomas Edison
   a. was invented
   b. invented
   c. were invented
   d. was being invented
   e. were being invented
24. even though construction costs are high, a new dormitory ... next year
   a. is built
   b. was built
   c. has been built
   d. is going to be built
   e. is being built
25. the class was too large, so it ... into two sections
   a. were divided
   b. was divided
   c. is divided
   d. has been divided
   e. are divided
26. A bracelet ... around the wrist
   a. is worn

Appendix VII

a. Score of mean (variable X)

The formula: \( \text{Mean } X \)

\[
\bar{X} = \frac{\sum X}{n} = \frac{3042}{40} = 76.05
\]

b. Score of mean (variable Y)

The formula: \( \text{Mean } Y \)

\[
\bar{Y} = \frac{\sum Y}{n} = \frac{2746}{40} = 68.65
\]

After obtained the score of mean, then calculated deviation each score \( X \) with formula \( x = X - \bar{X} \) and each score \( Y \) with formula \( y = Y - \bar{Y} \)

\[
r_{xy} = \frac{\sum xy}{\sqrt{\sum x^2} \sqrt{\sum y^2}}
\]

\[
SD_x = \sqrt{\frac{\sum x^2}{n}} = \sqrt{\frac{1875.9}{40}} = \sqrt{46.8975} = 6.84
\]

\[
SD_y = \sqrt{\frac{\sum y^2}{n}} = \sqrt{\frac{2819.1}{40}} = \sqrt{70.4775} = 8.39
\]
\[ r_{xy} = \frac{\sum xy}{\sqrt{(\sum x^2)(\sum y^2)}} \]

\[ = \frac{87.575}{\sqrt{(1065.775)(2590.975)}} \]

\[ = \frac{87.575}{\sqrt{2761396.4}} \]

\[ = \frac{87.575}{1661.74} \]

\[ = 0.52 \]

df  = N – nr

  = 40 – 2 = 38

To know the correlation of them in 5% and 1% significant, the writer used r table with df formula: df = N-nr

df  = degrees of freedom

N  = total number of respondents

nr  = number of variable (X and Y)

df  = N-nr = 40-2 = 38 (“r” value consultation table)

df  = 38.

At the degree of significant of 5% = 0.320

At the degree of significant of 1% = 0.413

Nomor: 657/FKIP/SekFak/05.2013
24 Mei 2013

Yth.
Kepala Sekolah
SMA Hutama
Bekasi

Hal: Permohonan Izin Melaksanakan Penelitian

Dengan hormat,

Sehubungan dengan rencana penulisan skripsi mahasiswa kami:

Nama: Martha Hotnida
NIM: 0912150051
Semester/Program Studi: VIII/Pendidikan Bahasa Inggris
Judul Skripsi: "The Correlation Between Reading Ability and Vocabulary Mastery Towards Students’ Achievement at Eleven Graders of SMA Hutama."

Kami mohon bantuan Bapak/Ibu untuk memberikan izin kepada mahasiswa tersebut melaksanakan penelitian di sekolah yang Bapak/Ibu pimpin.

Atas perhatian Bapak/Ibu, kami ucapkan terima kasih.

Pardede, S.S., M.Hum

Tempat

Menindaklanjuti surat permohonan ijin melaksanakan penelitian Universitas Kristen Indonesia Nomor : 657/FKIP/SekFak/5.2013 tanggal 24 Mei 2013 tentang Permohonan Izin melaksanakan penelitian, Menerangkan bahwa Mahasiswa Universitas Kristen Indonesia telah melaksanakan Penelitian di SMA HUTAMA dari tanggal 29 Mei 2013 s/d 05 Juni 2013. Adapun mahasiswa tersebut adalah :

Nama : MARTHA HOTNIDA
NIM : 0912150051
Program Studi : Pendidikan Bahasa Inggris
Fakultas : Keguruan dan Ilmu Pendidikan
Semester : VIII

Demikian surat ini kami sampaikan. Atas perhatian dan kerjasamanya yang baik kami ucapkan terima kasih.
