

APPENDIX

Appendix 1

Sherlock Holmes Summary

Sherlock Holmes (2009) movie is action movie based on the character Sherlock Holmes that was created by Sir Arthur Conan Doyle. The movie released by the year 2009 and directed by Guy Ritchie. The movie is about Sherlock Holmes and his friend Dr. John Watson that trying to stop the serial killer Lord Blackwood who has killed five people in similar manner which is using the black magic. After Lord Blackwood was caught by the police, in prison, exactly before he is sentenced to death because of what he has done, he requests to meet Sherlock Holmes. Lord blackwood tells Sherlock Holmes that there will be three more deaths that will cause a great change to the world. After that Lord Blackwood is hanged and Dr. John Watson pronounced him dead. After that, Sherlock Holmes have a visit from his former lover named Irene Adler and she ask Sherlock Holmes to find a person who went missing named Reordan. At first, Sherlock Holmes does not take the job from Irene Adler to look for Reordan, but after he know that Irene has a secret employer, Holmes start to look for Reordan with his friend John Watson. Irene secret employer says that Reordan is the key of what Blackwood was doing.

While doing the case for searching Reordan, Holmes and Watson get a news from the police that Blackwood tomb was destroyed, and the grounds keeper of the cemetery says that he sees that Lord Blackwood rise from the grave. After Blackwood tomb was took from the grave, they tried to open the tomb and surprise to see what inside. Inside the tomb there is a man whose death. Holmes and Watson

following the clue of the missing person named Reordan and that person inside the Blackwood tomb was Roerdan. Holmes and Watson try to find more clue about what happened to Reordan by getting to Reordan house. In Reordan house they discover that Reordan was doing some experiment attempting to merge science with magic.

Later, Holmes took to a Temple of four order and he met with Blackwood father Sir Thomas and his secretary Lord Coward ask Holmes to stop Blackwood. As the home secretary, Lord Coward have an influence of the police in London. Holmes telling Sir Thomas about Blackwood being his son. Most people did not know that Sir Thomas is Blackwood father. Holmes take the case for himself without charging any fee. After meeting with Holmes, Sir Thomas and his friend of the group killed with all the supernatural by Blackwood. Lord Coward, the secretary allowing Blackwood to take over the control of the order and try to make Britain great again.

Holmes and Watson still looking for the clue for the case to take down Blackwood. However, while Blackwood was taking control of the order, Blackwood ask Lord Coward to making a sentence for police to arrest Holmes. Thus, Holmes secretly hiding whilst he learns about the cases of Blackwood. After revealing of what happened, Holmes, Watson, and Adler found the machine based on Reordan experiment. The machine was designed to release some toxic into the grand hall of a Parliament. Holmes, Watson and Adler, fight with Blackwood people to get the cylinder of the machine.

Adler got the cylinder and run away from the building. Later she was caught by Holmes and he persuade Adler to give him the cylinder. Whilst Holmes and

Adler talking, here come Blackwood who wants to take the cylinder from Adler. Holmes, Adler, and Blackwood fight over the cylinder. Then, Blackwood lose the fight and Holmes telling him that everything that he has done was only a conjuring trick not a black magic. Blackwood falls from the bridge and then dead.

In the end of the movie, Adler says to Holmes that his employer named James Moriarty and Holmes should be careful of him. Whilst Watson and his fiancée are going to move to their new house. Police officer came and telling Holmes and Watson that one of the police officer was found dead in the sewer the next morning by the guard of the Parliament. Holmes realized the the bullet who killed the police officer was the same bullet as the gun that James Moriarty has. Thus, Holmes take the case.

Appendix 2

Script in Sherlock Holmes (2009)

PART 1 (Beginning)

1	7
00:01:38,732 --> 00:01:40,162	00:01:57,372 --> 00:02:01,582
Kepala miringkan ke kiri.	Prognosis ringkas: Sadar dalam 90 detik. Keampuhan serangan: seperempat jam terbaik.
2	8
00:01:40,252 --> 00:01:41,972	00:02:01,802 --> 00:02:04,242
Tuli sebagian di telinga.	kemampuan pulih maksimal: tidak mungkin.
3	9
00:01:42,402 --> 00:01:43,712	00:03:17,442 --> 00:03:20,222
Titik pertama serangan.	- Aku suka topimu. - Aku baru mengambilnya.
4	10
00:01:45,512 --> 00:01:48,922	00:03:20,642 --> 00:03:22,292
Dua. Tenggorokan. Lumpuhkan pita suara. Hentikan jeritan.	Apakah kauingat pistolmu?
5	11
00:01:49,612 --> 00:01:52,112	00:03:22,332 --> 00:03:23,782
Tiga. Mungkin pemabuk berat. Mengembangkan tulang rusuk ke hati.	Kutahu aku lupa sesuatu.
6	
00:01:53,112 --> 00:01:56,482	
Empat. Akhirnya, tarik kaki kiri. Pukulan patela.	

- 12
00:03:24,242 --> 00:03:26,622
- Kupikir aku meninggalkan kompor menyala. - Memang.
- 14
00:03:32,022 --> 00:03:33,602
Bagaimanapun, kau seorang dokter.
- 15
00:03:39,152 --> 00:03:40,792
Selalu senang bertemu denganmu, Watson.
- 17
00:03:45,642 --> 00:03:47,602
Dia sedang membariskan pasukannya.
- 18
00:03:48,382 --> 00:03:49,432
Itu bisa seharian
- 20
00:04:51,432 --> 00:04:52,832
dan anjingnya yang setia.
- 21
00:04:53,652 --> 00:04:54,942
Katakan padaku, dokter...
- 22
00:04:55,232 --> 00:04:58,272
Sebagai orang medis, apa kau nikmati pekerjaanku?
- 23
00:04:58,502 --> 00:05:00,622
Biar kutunjukkan betapa aku menikmatinya.
- 25
00:05:07,312 --> 00:05:08,622
Perhatikan.
- 26
00:05:11,972 --> 00:05:13,232
Bagaimana kau bisa melihatnya?
- 27
00:05:14,132 --> 00:05:15,632
Karena aku mencarinya.
- 29
00:05:23,422 --> 00:05:24,862
Kalian tampak terkejut.
- 30
00:05:25,262 --> 00:05:27,972
Menurutku gadis itu lebih patut dapat perhatian daripada dia.

- 31
00:05:29,332 --> 00:05:30,362
Tentu.
- 32
00:05:36,372 --> 00:05:38,802
Oh, aku tak akan sentuh itu kalau aku jadi kau, Boyo.
- 33
00:05:39,642 --> 00:05:40,762
Anak baik.
- 34
00:05:41,572 --> 00:05:43,462
Waktu yang tepat, Lestrade.
- 35
00:05:44,862 --> 00:05:48,062
Kita perlu satu untuk dokter... dan satu untuk tali gantung.
- 36
00:05:48,602 --> 00:05:50,042
- Clarky. - Sir?
- 37
00:05:50,142 --> 00:05:52,232
Wanita ini harus ke rumah sakit segera.
- 38
00:05:52,252 --> 00:05:55,092
- Taruh dia di belakang Maria. - Bagus, anak-anak. Ya itu.
- 39
00:05:58,862 --> 00:06:00,582
Bawa dia anak-anak.
- 40
00:06:01,632 --> 00:06:03,332
Jika kau tidak keberatan.
- 41
00:06:05,182 --> 00:06:06,632
Bawa dia pergi dari hadapanku.
- 42
00:06:12,032 --> 00:06:14,442
Dan kau mestinya menunggu perintahku.
- 43
00:06:15,412 --> 00:06:17,662
Jika aku begitu, kau tinggal mengangkat jenasanya
- 44
00:06:17,702 --> 00:06:19,252
dan terus mengejar rumor.

45

00:06:19,652 --> 00:06:22,612

Selain itu, orang tua gadis itu mempekerjakanku, bukan kepolisian Yard.

46

00:06:22,762 --> 00:06:25,562

Itu kenapa mereka pikir, kau perlu bantuanku.

47

00:06:25,832 --> 00:06:29,502

- Baik, London kini bernapas lega. -
Tentu.

48

00:06:29,602 --> 00:06:32,012

- Selamat, Lestrade. - Hebat,
Inspektur.

49

00:06:32,212 --> 00:06:33,352

Silakan cerutunya.

50

00:06:33,842 --> 00:06:34,952

Tuan-tuan...

54

00:07:14,862 --> 00:07:16,002

Sangat bagus.

55

00:07:16,472 --> 00:07:19,382

Saraf terbaikku setelah bertahun-tahun, terima kasih pada anda.

57

00:07:21,622 --> 00:07:25,082

Rumah baru anda... kapan anda pindah?

58

00:07:25,272 --> 00:07:26,932

Aku pindah dalam minggu ini juga.

59

00:07:27,352 --> 00:07:29,202

Cavendish Place. Heh.

60

00:07:29,602 --> 00:07:30,842

Dan akan ada sentuhan seorang wanita, juga.

61

00:07:30,872 --> 00:07:32,782

Oh, itu luar biasa, pasti.

62

00:07:33,682 --> 00:07:35,382

Ya, Tuhan!

63

00:07:37,062 --> 00:07:40,282

- Itu tembakan! - Tidak. Tidak, tidak.

Heh...

64

00:07:40,592 --> 00:07:41,972

Memalu paku, kan?

65

00:07:42,432 --> 00:07:45,492

Rekanku, mungkin sedang
memasang lukisan.

66

00:07:45,872 --> 00:07:47,462

Aku akan pergi dan memeriksa.

67

00:07:48,182 --> 00:07:49,592

- Kolega anda? - Ya.

68

00:07:50,202 --> 00:07:52,222

Dia tidak akan pindah dengan anda,
kan?

69

00:07:53,052 --> 00:07:54,342

Tidak, dia tidak akan!

71

00:07:59,082 --> 00:08:02,151

Aku tidak akan masuk ke sana
sendiri! Tidak, selama dia pegang
senjata di tangannya!

72

00:08:02,152 --> 00:08:04,142

Anda tak harus masuk ke sana sama
sekali. Beri aku korannya.

73

00:08:04,242 --> 00:08:05,981

Apa yang akan kulakukan bila anda
pergi, dokter?

74

00:08:05,982 --> 00:08:07,321

Dia akan hancurkan seluruh rumah!

75

00:08:07,322 --> 00:08:08,972

Dia hanya butuh kasus baru, itu saja.

76

00:08:09,312 --> 00:08:10,882

tidak bisakah anda tunda
pertunangan anda?

77	401
00:08:11,682 --> 00:08:15,712	00:31:36,012 --> 00:31:38,072
Aku cium bau mesiu. Ini tidak benar, kautahu! Tidak, di wilayah pemukiman.	Dia <u>sangat penting</u> .
78	428
00:08:16,342 --> 00:08:18,412	00:32:39,793 --> 00:32:43,092
Terima kasih, Kapten Phillip.	rambut merah, tidak ada gigi depan.
81	491
00:08:21,962 --> 00:08:24,881	00:37:28,262 --> 00:37:31,782
<u>Mari</u> , Kapten.	Anak buahmu telah bekerja luar biasa melenyapkan setiap bukti potensial.
104	492
00:09:52,082 --> 00:09:52,931	00:37:31,783 --> 00:37:34,522
Penipuan asuransi	Ya, tapi setidaknya mereka tidak pernah menghilangkan kesempatan
122	493
00:10:42,242 --> 00:10:45,092	00:37:34,572 --> 00:37:37,672
Aku sekedar menguji anestesi baru.	dari kehilangan kesempatan.
PART II (MIDDLE)	
349	494
00:26:56,852 --> 00:27:00,112	00:37:38,832 --> 00:37:40,502
pembunuhan terkutuk 5 wanita muda tidak bersalah,	Kau gunakan waktumu, Holmes.
386	495
00:30:08,592 --> 00:30:12,642	00:37:40,602 --> 00:37:43,622
amplop yang mematikan ini.	Dan pada hari ketiga...

496

00:37:46,062 --> 00:37:48,941

Lembaran ini batu pasir, setengah ton masing-masing, jika mereka 1 pon,

497

00:37:49,042 --> 00:37:51,142

dan mereka membuka dari dalam.

498

00:37:51,482 --> 00:37:53,472

Lestrade. Bagaimana dengan peti mati?

499

00:37:54,232 --> 00:37:56,171

Kami sedang dalam proses mengangkatnya sekarang.

502

00:38:00,452 --> 00:38:03,312

Pada tahap apa prosesnya? Perenungan...?

503

00:38:05,262 --> 00:38:06,962

Dan bagaimana saksi kita?

505

00:38:08,832 --> 00:38:11,922

Dan rupanya dia cata.. cat...

506

00:38:12,022 --> 00:38:13,782

Catatonic, Sir.

507

00:38:14,732 --> 00:38:16,452

- Dia tidak merasa sangat baik. - Ya.

508

00:38:16,952 --> 00:38:22,962

Sekarang jika kalian tidak berhenti bertingkah seperti kumpulan pemerah susu gemetaran kalian bisa lebih cepat.

509

00:38:23,042 --> 00:38:26,902

Sekarang kalian ke bawah dan kalian bawa peti mati itu ke atas... Sekarang!

513

00:38:46,192 --> 00:38:48,182

Pria itu shock.

514

00:38:48,202 --> 00:38:49,781

Dia mungkin memerlukan beberapa saat.

- 515
00:38:49,782 --> 00:38:53,442
Saksi mengatakan dia melihat Lord
Blackwood bangkit dari kubur.
- 517
00:38:56,352 --> 00:38:58,512
Kau yang umumkan dia sudah mati.
- 518
00:38:58,992 --> 00:39:01,752
Nadinya tidak berdenyut.
- 520
00:39:25,262 --> 00:39:27,222
Itu bukan Blackwood!
- 521
00:39:28,472 --> 00:39:32,352
Yah, sekarang kita punya pegangan
kuat yang nyata.
- 522
00:39:36,522 --> 00:39:38,272
Waktu kematian?
- 523
00:39:40,052 --> 00:39:44,502
Diptera sekitar...
- 524
00:39:45,102 --> 00:39:46,761
2/3 dari satu inci
- 525
00:39:46,962 --> 00:39:50,982
yang menunjukkan waktu kematian
antara 10 dan 12 jam yang lalu.
- 526
00:39:51,652 --> 00:39:53,892
Boleh kupinjam bolpenmu?
- 527
00:39:58,162 --> 00:40:00,232
- orang kerdil adler. - Cebol.
- 528
00:40:10,212 --> 00:40:12,562
Aku tahu apa yang kulihat!
- 529
00:40:13,592 --> 00:40:15,552
Dia Blackwood!
- 530
00:40:16,232 --> 00:40:18,592
Jelas seperti aku melihat kalian.
- 531
00:40:20,312 --> 00:40:23,012
Dan ketika orang mati berjalan...

532

00:40:23,982 --> 00:40:26,912

yang hidup akan mengisi peti mati.

534

00:40:35,172 --> 00:40:37,632

Benar. Tutup petinya dan bersihkan tumpukan ini.

535

00:40:37,702 --> 00:40:39,722

Apa kau percaya dia benar-benar bangkit?

536

00:40:39,802 --> 00:40:42,802

Pertanyaannya bukan "jika" tapi "bagaimana." Permainan dimulai.

537

00:40:42,972 --> 00:40:45,121

"ikuti semangat atas tuduhan ini

538

00:40:45,122 --> 00:40:49,592

menangis Tuhan untuk Harry, Inggris dan St. George."

539

00:40:52,212 --> 00:40:56,061

Kenapa toko ikan dan keripik, aku tidak mengerti.

540

00:40:56,162 --> 00:41:00,082

Itu bir khusus yang mereka gunakan. Sebuah bir hitam utara tepatnya.

542

00:41:02,162 --> 00:41:04,232

Aku melihat banyak hal dalam perang yang aku tidak mengerti.

543

00:41:04,342 --> 00:41:06,871

Di India, aku pernah bertemu seorang pria yang meramalkan kematiannya sendiri

544

00:41:06,872 --> 00:41:11,202

tepat sampai ke angka dan tempat peluru yang membunuhnya.

545

00:41:11,532 --> 00:41:12,892

Kau harus akui, Holmes,

546

00:41:12,902 --> 00:41:18,722

penjelasan supernatural untuk kasus ini, secara teoritis memungkinkan.

- 547
00:41:18,742 --> 00:41:20,801
Tidak, setuju, tapi ini
- 548
00:41:20,802 --> 00:41:23,862
kesalahan besar untuk berteori
sebelum memiliki data.
- 549
00:41:24,152 --> 00:41:26,872
Tak pelak lagi, ada yang merubah
fakta agar sesuai teori
- 550
00:41:26,972 --> 00:41:28,842
bukannya teori yang sesuai fakta.
- 805
01:04:19,192 --> 01:04:21,912
Penutup mata. Sentuhan yang bagus.
- 984
01:22:13,742 --> 01:22:16,522
- Tenanglah.
- PART III (ENDING)**
- 1005
01:26:53,542 --> 01:26:55,902
Dia di kamar mayat Scotland Yard.
- 1129
01:36:36,442 --> 01:36:39,082
Sangat khas sepatu buatan tangan
milikmu.
- 1160
01:38:36,262 --> 01:38:38,442
Siang ini kekuasaan akan diambil
alih oleh kami.
- 1264
01:51:52,462 --> 01:51:54,852
Kematian Standish adalah misteri
sesungguhnya
- 1359
01:58:50,502 --> 01:58:52,312
Ia salah satu sersan kami, Sir.
- 1360
01:58:52,412 --> 01:58:55,102
Dia hilang di gorong-gorong di hari
anda menghentikan Lord
Blackwood.
- 1361
01:58:55,302 --> 01:58:58,702
Aku rasa Pekerja gorong-gorong
baru saja temukan tubuhnya pagi ini,
Tuan.

- 1362
01:58:59,332 --> 01:59:02,232
Kami percaya sersan itu orang pertama di tempat kejadian.
- 1363
01:59:02,302 --> 01:59:04,862
Dapatkah aku membantu anda, Petugas?
- 1364
01:59:05,252 --> 01:59:07,822
... ditembak di kepala.
- 1365
01:59:07,972 --> 01:59:10,212
Apa pelurunya berkaliber kecil?
- 1366
01:59:10,502 --> 01:59:12,402
Ya.
- 1367
01:59:13,742 --> 01:59:15,762
Apa ada luka bakar mesiu di alisnya?
- 1369
01:59:19,332 --> 01:59:21,382
Titik jarak dekat.
- 1371
01:59:23,892 --> 01:59:26,002
Profesor Moriarty.
- 1372
01:59:28,782 --> 01:59:30,472
Ya anak yang baik!
- 1373
01:59:30,662 --> 01:59:33,302
Semuanya akan baik-baik saja.
- 1374
01:59:33,552 --> 01:59:35,161
Di mana perangkat Blackwood sekarang?
- 1375
01:59:35,162 --> 01:59:36,551
Secret Service memilikinya, Sir.
- 1376
01:59:36,552 --> 01:59:38,462
Mereka telah ambil alih kasus ini.
- 1377
01:59:38,862 --> 01:59:40,862
Aku berani bertaruh, ada bagiannya yang hilang.

1378

01:59:42,992 --> 01:59:46,042

Jadi Moriarty mengejar suatu bagian dari mesin itu.

1380

01:59:47,472 --> 01:59:50,362

Ada yang lebih sulit dipahami daripada fakta yang jelas.

1381

01:59:50,482 --> 01:59:53,102

Dapatkan penemuan itu adalah tujuan utama selama ini.

1382

01:59:53,412 --> 0:59:55,272

Dan Adler hanya pengalihan perhatian.

1383

01:59:55,352 --> 01:59:56,861

Dia tahu aku akan mengejanya

1384

01:59:56,862 --> 01:59:58,911

dengan demikian meninggalkan mesin tidak terjaga.

1385

01:59:58,912 --> 02:00:02,732

Teknologi semacam itu akan bernilai kekayaan tak berhingga.

1386

02:00:02,952 --> 02:00:09,242

Bayangkan, mampu mengontrol perangkat apapun dengan mengirim perintah lewat gelombang radio.

1387

02:00:09,672 --> 02:00:11,132

Ini untuk masa depan, Watson.

1388

02:00:14,042 --> 02:00:16,452

Aku sudah memuat kotak terakhir anda, Sir.

1391

02:00:23,352 --> 02:00:26,132

Hentikan dia sebelum dia sampai ke pintu depan.

1393

02:00:29,882 --> 02:00:36,872

Kasusnya dibuka kembali...
