Dear Editor
European Journal of Molecular & Clinical Medicine Issues presents
(EJMCM Journal)

I read and use scientific articles published in EJCMC Journal.

The performance of the EJCMC Journal was excellent, and the article published helped me in conducting research and writing scientific articles.

I am Chontina Siahaan, Lecturer from Universitas Kristen Indonesia

I have completed a scientific article entitled "Ethics of Communication and Compliance in Response to The Handling of The Covid-19 Pandemic".

I hope this article can be published in the EJCMC Journal, because there are interesting findings in the scientific article that can become new treasures in science, especially in the field of molecular and clinical medicine sciences.

I am willing to go through the review process following EJCMC Journal standards.

Best Regards,

Chontina Siahaan
Universitas Kristen Indonesia

Thank you for submitting your manuscript to EJCMC.

We have completed our evaluation and the reviewers recommend reconsideration of your manuscript following minor revision. We invite you to send back after addressing the comments below. Please resubmit your revised manuscript by September 20, 2020 or ask whether an alternate date would be acceptable.

When revising your manuscript, please consider carefully all issues mentioned in the reviewers' comments: outline every change made in response to their comments and provide suitable explanations for any comments not addressed. Please also note that the revised submission may need to be re-reviewed.

To submit your revised manuscript, please log in as an author at this email, and navigate to the "Revision" folder.

EJCMC values your contribution and I look forward to receiving your revised manuscript.

Editor and Reviewer comments:

Reviewer #1:

1. The paper has some interesting information, and the topic is essential; however, there seem to be some basic questions suggesting flaws in the questionnaire which put the conclusions in question.
2. The English in parts approaches being incomprehensible so as a first step, a firm editorial hand would be needed to figure out what needs to be rethought.
3. The literature review refers to engaging experience and studies elsewhere, but it is not well linked to the research and therefore, the conclusions.
4. The paper's focus is more apply on Indonesia Only, how about other countries and the questionnaire.
5. There should be more information about the object of research, not about the content of the study.

I hope you can make improvements as soon as possible, and send the revised article again via this email.

Dear

Chontina Siahaan
Universitas Kristen Indonesia

Thank you for your efforts to make improvements to your article.

Based on Reviewers' considerations, the article has, at some point, increased.

However, you have to improve on a few more points. Hopefully, you are willing to do it.

Please follow the following revision instructions:

#Reviewer 2:

1. I was hopeful that this article would be readily usable though the English in parts is so low that reading is challenging. The topic is of great importance.
2. The literature review includes some tantalizing references, but even after sorting through the language issues, the links are not made to the specific study.
3. They when study design comes into play there are serious questions about the system.
4. If the author could work with a robust English language editor or colleague to clean up both language and argument, it might be publishable.
5. A side note is that it's not at all clear what the title references the article.

Articles that have been revised and please send it back via this email.
