Your REVIEW REPORT article titled: "**Survey Online Learning in the Pandemic Time of Covid-19, Case Study at Universitas Kristen Indonesia**".

Your article's performance has improved, our reviewers still have some suggestions for improvement before your article is published.

1. In the introduction, please indicate why this research is important or urgent to do regarding the vacuum of literature, so that the position of this article is very clear as new.
2. The theory used is still general and must be made specific to explain the phenomenon under study.
3. Results and discussion need to be complemented by in-depth qualitative interpretation and comparison with previous findings.
4. The existing references are very outdated, and it is necessary to add references from the latest journals in the last 5 years.

Sincerely,

Managing Editor
