Posma Sariguna Johnson Kennedy:

Thank you for submitting the manuscript, "PROBLEMS OF BASIC HEALTH SERVICES IN THE BORDER AREAS OF INDONESIA WITH TIMOR LESTE STATE IN NUSA TENGGARA TIMUR PROVINCE" to Acta Scientiarum Polonorum. Oeconomia. With the online journal management system that we are using, you will be able to track its progress through the editorial process by logging in to the journal web site:

Submission URL: <https://js.wne.sggw.pl/index.php/aspe/authorDashboard/submission/1598>  
Username: posmahutasoit

If you have any questions, please contact me. Thank you for considering this journal as a venue for your work.

Redaktor ACTA

Posma Sariguna Johnson Kennedy:

We have reached a decision regarding your submission to Acta Scientiarum Polonorum. Oeconomia, "PROBLEMS OF BASIC HEALTH SERVICES IN THE BORDER AREAS OF INDONESIA WITH TIMOR LESTE STATE IN NUSA TENGGARA TIMUR PROVINCE".

Our decision is to: Resubmit for Review

Please send me corrected article:

mgr Marcin Chciałowski  
Faculty of Economic Sciences, Warsaw University of Life Sciences-SGGW  
[d002489@sggw.edu.pl](mailto:d002489@sggw.edu.pl)

Dear Posma Sariguna Johnson Kennedy

Attached I am sending a file with your article. Please, verify and respond to the Editor's comments in the text. Any comments requiring improvement have been marked with the annotation "AUTHOR". Please submit any corrections and respond to the Editor's comments in the form of comments in a PDF file.

We are waiting for the submission of the approved file

Best regards,  
Marcin Chciałowski

## COMMENTS

My remarks are the following:

1. The reviewer agrees that 'the role of infrastructure is also a significant physical component for the border region.'
2. The chosen research method is in line with the purpose of the study, although it should be added that the use of composite indicators always has some distorting effects.
3. It would be better to use the English term 'Community Health Centre' instead of 'Puskesmas' in Table 1. (The English term would be also better in case of 'Posyandu')
4. Use 'et al.' instead of 'et. al'.
5. It is worth emphasizing the role of education in healthcare development, with particular attention to prevention. Developing countries' healthcare and education systems should be developed jointly and simultaneously.
6. In Table 3 and 4 it would be recommended to indicate the rates beside the numbers.
7. This sentence should be revised: 'The increase occurred in the percentage of children under five and under five years old wasting and underweight.'
8. The different form of numbers (percent) should be harmonised (e.g. '61.1' instead of '61, 1'): 'From the 2017 data, there are three health problems faced by NTT Province, namely: the high percentage of unhealthy people as much as 64 percent; the percentage of citizens who have not participated in the National Health Insurance (JKN) as much as 60.4 percent; and there are smokers in the family as much as 75.7 percent with the number of hypertension sufferers who take irregular treatment as much as 61, 1 percent.'
9. In Table 7: (2014) 10,323 instead of 10323.
10. Do you have any information on why the number of 'Posyandu' almost halved in 2015? It should be explained.
11. 'Perpres' or 'prepres'? Please check it in text and in references.
12. Please correct the year of the publication in references (it has been published in 2007): Wasis B., Suprpto, Ristrini, 2017. Studi tentang Rekrutmen, Seleksi dan Alokasi Kegiatan Tenaga Keperawatan di Daerah Terpencil di Jatim dan NTT. Badan Penelitian dan Pengembangan Kesehatan: Pusat Penelitian dan Pengembangan Sistem dan
13. The reviewer couldn't find any citations in the text for this publication: Sardjoko, Subandi, 2018. Penguatan Pelayanan Kesehatan Dasar di Puskesmas, Direktorat Kesehatan dan Gizi Masyarakat Kedepuitan Pembangunan Manusia, Masyarakat dan Kebudayaan
14. All in all, we can read an interesting study that summarizes one of the major challenges of our time, the territorial differences in healthcare. The development proposals formulated are relevant not only in Indonesia but also in most developing countries. I sincerely hope that the activities suggested by the author will be implemented.

Dear Marcin Chciałowski,

We apologize for the delay. Here we send the revised paper.  
We have also sent it through the website

Thank you.

Dr. Posma Sariguna Johnson Kennedy

Dear Posma Sariguna Johnson Kennedy,

Sorry for taking so long about what to do with your article. The main problem is its length. When properly formatted, it is approximately 24-25 pages long. The page limit in our journal is 12. This text and your research are very important to us. Therefore, I have a proposal that you divide your article into two and publish one in the issue 4/2020 and the other in the issue 1/2021. Of course, the articles would have to have different titles and abstracts. Will you agree to this solution? Attached I am sending a formatted article. If you agree, divide it sensibly into two separate articles.

Best Regards,  
Marcin Chciałowski

Dear Posma Sariguna Johnson Kennedy

thank you very much.

The article: HEALTH POLICY PROBLEMS IN INDONESIA'S BORDER REGION will be published in issue 4/2020, while the article: PROBLEMS OF BASIC HEALTH SERVICES IN THE BORDER AREAS OF INDONESIA IN NUSA TENGGARA TIMUR PROVINCE, in issue 1/2021.

Best regards,  
Marcin Chciałowski
