### Review Report

Recommendation: Accept Submission

Article Content

- Does the literature systematic review of the issues, which is relevant to the field of study.
- Does All exposure should be in English and written in good and coherent grammar.
- Does it Easy to understand?
- Does it Interesting to read?
- Does that describes experiences and situations related to issues in society

- Excellent
- Moderate
- Poor

Reviewer Comments and conclusion

This research phenomenon is very well established, and many studies have examined it, readers should better understand the concept of a good phenomenon in research. To overcome the well-established phenomenon and the many studies that have examined it, a researcher must ensure that the background of the problem is specific and focused on the research question or hypothesis to be conducted. In addition, the researcher should also ensure that the background of the problem is not too long and contains information that is not relevant to this research question or hypothesis.

Excellent  
 Moderate  
 Poor

**Reviewer Comments and conclusion**

To avoid a background that is too general and normative, a researcher should ensure that the background is specific and focused on the research question or hypothesis. In addition, the researcher must also ensure that the background of the problem is not too long and contains information that is not relevant to the research question or hypothesis.

To improve the flow of writing in the background of the problem, a researcher can take several steps such as:
