2) Conduct an elaborate literature review and use published literature in ethnobotany to construct a meaningful introduction and discussion section. The authors have not referred enough publications outside Indonesia. ERA is not a regional journal. So, please write for the global audience.

3) Revise your manuscript according to the IMRAD framework (<https://projects.ncsu.edu/esiglobe/nmswishe/IMRAD%20Handout.pdf>)

4) Include an abstract in Batak Karo language.

5) Do not include charts as image files.

6) Ensure voucher specimen number and herbarium are mentioned.

Best regards,  
Merlin Franco

Dear Dr. Merlin,

Thank you for sending me the proof.  
I have revised 1st comment in red. It has changed from "chopped" to "cincang". I also added the DOI for the articles that have DOI.

Best,  
Endang

Dear Endang,  
Sending you the proof for your verification. The article has been edited. I have removed the column on informant no. from the table.  
There are two comments for you to address. Also, in the references, include correct DOI for all articles that have DOI. I have given an example by including DOI of the first reference. This would maximise your citation chances.  
Please go through the document carefully for errors. Once published, we cannot rectify them. Mark any changes in red or highlight. Return it as early as possible.  
Regards  
Merlin

Dear Endang,  
A quick glance of your paper shows that it doesn't conform to the guidelines. Especially:  
1) Vernacular names should not be italicised, but in simple bold. This applies to ALL vernacular names in the article, including table.  
2) Reference formatting should strictly follow the ERA style. Journals should be written in full and not abbreviated.  
3) Figures captions are written as Fig.1, Fig. 2, etc.  
It is disappointing that despite reminder, you haven't formatted it fully.  
Please format it according to ALL guidelines and send it within the next three days to avoid rejection.  
Regards  
Merlin
