Dear Editor

Journal of Drug Delivery and Therapeutics (JDDT Journal)

We read and use scientific articles published in JDDT Journal.

The performance of the JDDT Journal was excellent, and the published article helped us conduct research and write scientific articles.

I am Wiradi Suryanegara Represent other authors, a lecturer from Universitas Kristen Indonesia, Jakarta, Indonesia.

We had completed a scientific article entitled **"Characteristics of Knowledge, Attitudes, and Behaviors of Women Aged 35 - 45 Years in Facing Menopause in Kelurahan Cawang Rw 06 East Jakarta 2016"**

We hope this article can be published in the JDDT Journal because there are interesting findings in Society of Pharmaceuticl Tecnochrats (SoPhtec).

We are willing to go through the review process following JDDT Journal standards.

Best Regards,

Wiradi Suryanegara

Universitas Kristen Indonesia, Jakarta, Indonesia

Dear
Wiradi Suryanegara
Universitas Kristen Indonesia, Jakarta, Indonesia

Thank you for submitting your manuscript to JDDT.

We have completed our evaluation, and the reviewers recommend reconsidering your manuscript following minor revisions. We invite you to send it back after addressing the comments below. Please resubmit your revised manuscript or ask whether an alternate date would be acceptable.

When revising your manuscript, please consider carefully all issues mentioned in the reviewers' comments: outline every change made in response to their comments and provide suitable explanations for any comments not addressed. Please also note that the revised submission may need to be re-reviewed.

To submit your revised manuscript, please log in as an author at this email, and navigate to the "Revision" folder. JDDT values your contribution, and I look forward to receiving your revised manuscript.

Editor and Reviewer comments:

Reviewer #1:

1. **Expansion of Research Objectives:** This abstract provides an overview of investment strategies in volatile market conditions due to the Corona disease outbreak. However, it would be better if this research also considered other aspects, such as the impact of the pandemic on specific sectors, changes in investor behavior, or an analysis of the long-term impact on financial markets.
2. **Use of Empirical Data:** As a descriptive study, it would be better if this article integrated the findings from previous studies with relevant empirical data. Citing the latest research results and actual market data will provide a sound basis to support the claims and arguments presented in the article.
3. **Exploring Methodology:** This article states that this research is a literature study but does not explain further the methodology used. It is important to explain how the literature was selected, the inclusion and exclusion criteria, and why previous theories and research were selected. This will increase the reader's confidence in the validity of the research.
4. **Clearer Presentation of Information:** Several sentences in this abstract feel ambiguous and difficult to understand. It is recommended to formulate these sentences more clearly and concisely. Make sure that the reader easily understands the ideas and arguments conveyed.
5. **Use of More Specific Keywords:** The keywords presented are still too general and not specific enough for the context of this study. It is suggested to consider using more specific keywords that reflect this research's main topic and contribution in the context of investment and the pandemic.

I hope you can make improvements as soon as possible and send the revised article again via this email.

Kepada: Wiradi Suryanegara <wiradi.suryanegara@uki.ac.id>

Dear

Wiradi Suryanegara

Universitas Kristen Indonesia, Jakarta, Indonesia

Thank you for your efforts to make improvements to your article.

Based on the Reviewers' considerations, the article has, at some point, increased. However, you have to improve on a few more points. Hopefully, you are willing to do it.

Please follow the following revision instructions:

#Reviewer 2:

1. **Strengthening Justification and Relevance:** Further, explain why this research is important in the Corona pandemic and investment context. Present strong arguments and clear justifications for the relevance of this topic for investors, society, or economic policy.
2. **Diversified Use of Sources:** This article says that this research is supported by the theories and findings of previous research but does not provide details about these sources. It is recommended to include relevant references and expand the range of literature used, including scientific articles, books, reports, or data that can strengthen research claims.
3. **Deeper Analysis:** Although this article is a descriptive study, it provides a more in-depth analysis of the previous findings. Discuss differences or similarities in findings from previous research, identify existing knowledge gaps, and offer a critical view of the existing literature.
4. **Practical Implications and Recommendations:** This article can be enriched by providing practical implications of the research findings. Provide recommendations for investors, financial practitioners, or policymakers regarding investment behavior amidst volatile market conditions due to the Corona pandemic.
5. **Organization and Presentation:** Attention to grammar, spelling, and overall writing style. Ensure this article meets good and consistent grammar standards, use precise and clear terms, and pay attention to an organized structure that is easy for readers to follow.

Articles that have been revised and please send them back via this email.
