To: Rospita Adelina Siregar <rospita.siregar@uki.ac.id>

Dear Rospita Siregar,

This is to confirm that you have successfully completed the Camera-ready submission of your paper:

Mitigation as an Effort to Reduce Disease Numbers and Doctor Death Due to Covid-19

to ICLSSE 2021, 3rd International Conference on Law, Social Sciences and Education

Please note that for an online EAI conference, you are required to submit a video presentation of your paper. Check the conference website for instructions on how to record and submit your video presentation before the set deadline. This only applies to conferences organized and sponsored by EAI.

We hope to see you at ICLSSE 2021!

By taking part in ICLSSE 2021, you help advance EAI's mission toward open research and innovation via community-driven mentorship, review, recognition, and building a bridge between European and International research.

Thank you for being a part of the EAI Community.

Dear Rospita Adelina Siregar,

Thank you for your kind reminder. Please note that the ICLSSEE 2021 is in the final stage of metadata validation and therefore should be published this week. I hope this helps.

Best regards
Martin

Abstract
The death of doctors due to Covid-19 in various regions in Indonesia during a period of time that continues to increase with various types of medical professions such as general practitioners, doctors in specialist education and specialist doctors. Through a medical study of the cause of death of doctors using primary data from the PB IDI Team, the data that was studied qualitatively resulted from the fact that 303 doctors who died due to Covid 19 were mostly general practitioners (55.8 %) and specialist doctors (44.2%), male doctors (85%) and female doctors (15%), the highest age distribution was over 45 years (81.2%). The main factors overcoming physical and mental. Statement on the application of Law No. 24 of 2007 concerning Disaster Management emphasizes that mitigation efforts are carried out through efforts to reduce disasters, both through physical development and awareness and increased capacity to face disasters, aimed at medical personnel as the frontline.

Keywords doctor's death, mitigation, covid-19
